# IO-Link Starter Kit

Article Number: 11703949

Overview

- Full vertical sensor integration from field to PLC
- Plug and work experience by preconfigured devices
- Step by step YouTube tutorials for easy understanding
- Full access to IO-Link functionalities by integrated webserver

Technical data

IO-Link Master

Article number	11215447
Name	IO-Link Master PROFINET
Features	• Suitable for field use with IP67 • 8 flexibly assignable ports enable various control concepts • Interface diversity with 2x PROFINET, Modbus TCP and OPC UA

O200.GP-GW1J.72NV

Article number	11208513
Features	• Photoelectric miniature sensor with background suppression • 20 … 120 mm

IR18.D10L-F60.GP1I.7BF

Article number	11193949
Features	• Inductive distance measuring sensor • 0 … 10 mm

Clever Level PL20H Adaptive Trigger

Article number	11226819
Features	• Level measurement sensor

CAM12.D4-11230365

Article number	11230365
Features	• M12 male 0° / RJ45 male 0° shielded Ethernet • PUR AWG22 shielded green drag chain • Length 2m

CAM12.A4-11230419

Article number	11230419
Features	• M12 male 0° / M12 female 0° • PUR 4x0.34 black drag chain • Length 1m

CAM12.A4-11230429

Article number	11230429
Features	• M12 male 0° / M8 female 0° • PUR 4x0.25 black drag chain • Length 1m

IO-Link Master Power Supply

Article number	11703175
Features	• Power supply unit 24 V/DC 1250mA 30W • AC Plug-Mix Adapter • M12 female 0° L-cod. field- wireable (IDC)

USB Ethernet Adapter

Article number	11242878
Features	• USB-A male / RJ45 male
