

## Spring encoder arm

Article number: 11101893

### Overview

- Spring encoder arm for stable, versatile mounting options. Ideal for use of encoders with measuring wheel. Contact force max. 40 N (adjustable), the force is present in any position.

### Technical data

#### Technical data - mechanical design

Weight approx. 640 g

#### Suitable for

EIL580-SC (clamping flange  $\varnothing 36$  mm), EIL580P-SC (clamping flange  $\varnothing 36$  mm)

### Dimensions
