Technische Daten

Erfassungsbereich Sd	0,3 ... 8,5 m
Öffnungswinkel	6° (3dB)
Betriebsspannungsbereich +Vs	9 ... 32 VDC
Stromaufnahme max. (ohne Last)	160 mA
Ausgangsschaltung	CAN (5V)
logische Schnittstelle	CAN SAE J1939
Baud Rate	250 kBaud (500 kBaud)
kurzschlussfest	ja
verpolungsfest	ja, Vs zu GND
Arbeitstemperatur	-40 ... +70 °C
Lagertemperatur	-40 ... +85 °C
Schutzart	IP 68/69K

Technical data

sensing distance Sd	0,3 ... 8,5 m
aperture angle	6° (3dB)
voltage supply range +Vs	9 ... 32 VDC
current consumption max. (no load)	160 mA
output circuit	CAN (5V)
logical interface	CAN SAE J1939
baud rate	250 kBaud (500 kBaud)
short circuit protection	yes
reverse polarity protection	yes, Vs to GND
operating temperature	-40 ... +70 °C
storage temperature	-40 ... +85 °C
protection class	IP 68/69K

Données techniques

Portée de détection Sd	0,3 ... 8,5 m
Angle d'ouverture	6° (3dB)
Plage de tension +Vs	9 ... 32 VDC
Consommation max. (sans charge)	160 mA
circuit de sortie	CAN (5V)
interface logique	CAN SAE J1939
vitesse de transmission	250 kBaud (500 kBaud)
Protégé contre courts-circuits	oui
Protégé contre inversion polarité	oui, Vs vers GND
Température de fonctionnement	-40 ... +70 °C
Température de stockage	-40 ... +85 °C
Classe de protection	IP 68/69K

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTICE: Changes or modifications made to this equipment not expressly approved by Baumer may void the FCC authorization to operate this equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Radiofrequency radiation exposure Information: This equipment complies with FCC exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Canada Compliance Statement

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps. Ce transmetteur ne doit pas être placé au même endroit ou utilisé simultanément avec un autre transmetteur ou antenne.

 - b. NO OBJECT DETECTED: GREEN / YELLOW blinking
 - c. CAN BUS WAITING ON MASTER OR ERRORS: MAGENTA LED blinking
 - d. HW FAULT: RED LED blinking
9. Intended use / application policy:
 - a. The suitability and functionality of a Baumer product and its performance under different applications and / or end-use cases can only be verified by testing, and shall ultimately be the responsibility of the customer.
 - b. The product shall not be used:
 - For functional safety applications and in potentially explosive atmospheres.
 - In the direct control and modification of the state of function of the machine.
 - c. Possible malfunctions and failed measurements of the sensor must be intercepted at the system level and shall not lead to unsafe situations in the system.
 - d. The customer shall perform its own safety assessment to account for sensor behavior in particular situations (e.g. distance fluctuations in static situations, operator caused distance manipulation by hand or other objects).
 - e. Safety relevant information must be communicated to the end-user.
10. Recommended free space around radar lens

Rotational cone with an angle of $\pm 30^\circ$ around sensor center axis

Sensitivity and detection of objects near the blind region can be influenced by disturbing objects (e.g. metal boom structures or water hose) within this free space. Moving objects up to 60° outside of free space should be avoided. Further testing is recommended to define a smaller free space.

11. Compliance Statements:

a. FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 (1) this device may not cause harmful interference, and
 (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTICE: Changes or modifications made to this equipment not expressly approved by Baumer may void the FCC authorization to operate this equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Radiofrequency radiation exposure Information:

This equipment complies with FCC exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

b. Canada Compliance Statement

This device complies with Industry Canada licence-exempt RSS standard(s).

Operation is subject to the following two conditions:
 (1) this device may not cause harmful interference, and
 (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Ce transmetteur ne doit pas être placé au même endroit ou utilisé simultanément avec un autre transmetteur ou antenne.
